PROFILE

Spacetech Tanzania Limited

Building Tomorrow, Supplying Today.

Spacetech Tanzania Limited is a leading, privately owned Tanzanian construction and supply company. We operate as a dynamic, multi disciplinary firm, offering an integrated portfolio of services that spans civil infrastructure construction, building construction, and the supply, fabrication, and installation of premium construction and electrical materials.

At Spacetech Tanzania Limited, this is the foundation of our identity. We build with precision and purpose, constructing durable civil infrastructure and buildings that form the backbone of progress. We supply with reliability, providing premium construction and electrical materials that are the cornerstone of every successful project. We deliver with excellence, ensuring our work is completed on time, within budget, and to the highest standards of quality and safety. Driven by integrity, innovation, and an unwavering customer centric approach, we are more than contractors and suppliers we are partners in progress. Our mission is to shape Tanzania's future by delivering integrated construction and supply solutions that empower communities, fuel economic growth, and stand the test of time.

Spacetech Tanzania Limited

Building Tomorrow, Supplying Today.

Your Reliable Partner in Construction and Supply

Nicholaus Mikane

Founder & CEO

Dear Valued Clients and Partners,

Welcome to Spacetech Tanzania Limited. As CEO, I lead a company founded on excellence, innovation, and integrity in Tanzania's construction sector. We specialize in supplying quality construction and electrical materials, constructing civil structures and buildings, and fabricating steel structures all delivered to the highest standards.

We build not just durable structures but lasting relationships through trust and exceptional service. Each project reflects our commitment to quality, safety, and meeting unique client needs within budget and timeline constraints.

Our skilled team of engineers and architects brings your vision to life using sustainable technologies and transparent collaboration, ensuring results that meet your specifications while prioritizing safety and environmental responsibility.

At Spacetech, we create value while positively impacting communities and developing Tanzania's infrastructure.

Thank you for choosing us as your construction partner. We value your trust and look forward to building a successful future together.

Warm regards,
CEO,
Spacetech Tanzania Limited

Management Team

Spacetech Tanzania Limited

Dear Valued Clients and Partners,

Welcome to Spacetech Tanzania Limited. As the Management Team, we are proud to lead an organization dedicated to excellence, innovation, and quality in Tanzania's construction industry. At Spacetech, we deliver comprehensive services including construction material supply, electrical systems, civil works, building construction, and steel structure solutions. Our commitment ensures every project meets the highest standards of quality and client satisfaction.

We focus on building not just structures but enduring partnerships through reliability, trust, and exceptional service. Each project receives our dedicated attention to meet unique requirements while maintaining strict adherence to safety, timelines, and budget considerations.

Our skilled professionals work diligently to realize your vision using sustainable practices and modern technologies. We believe in collaborative approaches, maintaining transparency through all project phases to deliver customized solutions that prioritize safety and environmental responsibility.

Thank you for choosing Spacetech Tanzania Limited. We appreciate your trust and look forward to achieving mutual success through our partnership.

Warm regards,
Management Team,
Spacetech Tanzania Limited

About Us

Spacetech Tanzania Limited is a proudly Tanzanian-owned and operated company dedicated to delivering excellence in construction, civil works, and the supply of building materials across the nation. Established with a vision to be at the forefront of Tanzania's infrastructural transformation, Spacetech has emerged as a dynamic and reliable partner for both public and private sector clients, consistently providing high quality, cost-effective, and innovative solutions that meet and exceed expectations.

Built on a solid foundation of integrity, quality, innovation, and safety, the company offers a comprehensive and integrated portfolio of services. This includes the construction of residential, commercial, and industrial buildings; the development of key civil infrastructure such as roads and bridges; and the reliable supply, fabrication, and installation of premium construction materials and electrical components. Our dedicated team of experienced engineers, project managers, and skilled technicians brings exceptional expertise and a commitment to precision to every project, ensuring durability, compliance, and superior results in all our deliverables.

Headquartered in Ilala, Dar es Salaam, Spacetech operates with the resources and capability to manage projects of all scales. Our commitment to innovation is reflected in our adoption of modern construction technologies and sustainable practices, enhancing efficiency and minimizing environmental impact. Through strategic partnerships and a collaborative spirit, we continuously expand our capabilities to tackle new challenges and contribute to the nation's growing economy.

We at Spacetech Tanzania Limited do not merely construct structures and supply materials; we build the foundations for progress, empower communities, and shape a future of opportunity and sustainable growth. Our unwavering focus on customer satisfaction, ethical business practices, and tangible results solidifies our position as a leading and trusted construction and supply partner in Tanzania.

OUR MISSION, VISION

Mission

We strive to lead Tanzania's construction industry by delivering premium quality services and materials that build the nation's infrastructure. We are committed to completing every project to the highest standards, with unwavering focus on excellence, innovation, and client satisfaction. Performance is our foundation, and success is the outcome we deliver in every endeavor.

Vision

We envision a future where innovative, sustainable construction transforms Tanzania's landscape through cutting edge technologies and responsible methods. Our vision drives us to build enduring infrastructure that enhances quality of life and stands as a testament to strength, sustainability, and national progress.

OUR CORE VALUES

Integrity
We operate with unwavering honesty and transparency in all our actions, building trust through ethical conduct, accountability, and fairness with every client and partner.

Quality
We are committed to exceptional workmanship and premium materials, ensuring every project delivers durability, reliability, and results that surpass industry standards.

Innovation
We embrace advanced technologies and creative methods to enhance efficiency, solve complex challenges, and deliver smarter, more sustainable building solutions.

Sustainability
We prioritize eco friendly practices and sustainable resource management across our projects, minimizing environmental impact for a greener future.

Client Centrism
Our clients' needs are our primary focus. We listen carefully and deliver tailored, reliable solutions that ensure their complete satisfaction and success.

Collaboration
We believe in the power of teamwork, fostering a culture of open communication, mutual respect, and shared goals with all stakeholders.

Safety
We are unconditionally committed to protecting the health and safety of our team, clients, and communities in every environment we work.

Our Expertise and Service Portfolio

Construction of Civil Structures

We specialize in constructing essential civil infrastructure, including roads, bridges, drainage systems, and public utilities that form the backbone of modern communities. Our team of experienced engineers, project managers, and skilled technicians employs advanced engineering solutions and rigorous quality control measures to ensure every project meets the highest international standards of safety, durability, and functionality. We are deeply committed to delivering infrastructure that not only serves immediate transportation and utility needs but also stimulates long-term community development, enhances economic growth, and improves overall quality of life. Through the strategic use of premium materials, innovative construction methodologies, and sustainable practices, we build resilient structures designed to withstand environmental challenges and heavy usage while delivering lasting value and positive impact for generations to come.

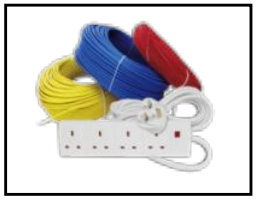

Our Expertise and Service Portfolio

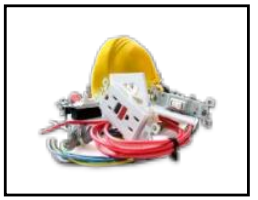

Electrical Material Supply

We provide an extensive selection of premium electrical materials, including advanced wiring systems, durable conduits, high capacity transformers, and precision circuit breakers. Our comprehensive product range is rigorously tested to meet and exceed international safety and performance standards, ensuring optimal energy efficiency, operational reliability, and long term value. These essential components form the backbone of safe and effective power distribution networks, supporting everything from residential electrification to large scale industrial power systems. Backed by technical expertise and quality assurance, we deliver trusted solutions that power progress while prioritizing safety and sustainability in every project we serve. Our products are sourced from renowned global manufacturers and supported by detailed technical guidance for optimal system integration.

supply of Construction Materials

We supply a comprehensive range of high quality construction materials, including cement, aggregates, bricks, and tiles, alongside a full portfolio of essential building products. Our products are meticulously sourced from a network of trusted, industry leading suppliers to ensure unmatched strength, reliability, and longevity for all residential, commercial, and infrastructure projects. Clients consistently rely on our materials as the foundational component to build safe, durable, and resilient structures that are engineered to last for generations, embodying a legacy of quality and trust in every build. Our commitment extends beyond supply to providing expert technical support and customized solutions for each project's unique requirements, supported by rigorous quality assurance and timely delivery systems.

Our Expertise and Service Portfolio

Building Construction

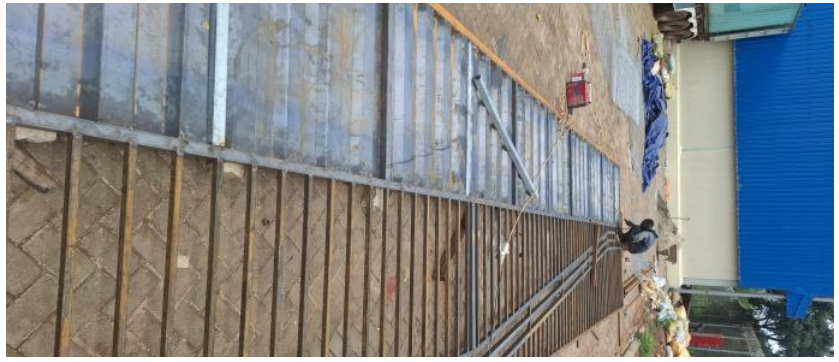

We offer expert, end to end building construction services, seamlessly covering everything from bespoke residential homes to sophisticated commercial complexes and robust industrial facilities. Our seasoned team of architects, engineers, and craftsmen delivers exceptionally high-quality results with a meticulous focus on detail, innovative design, and superior craftsmanship. We foster a collaborative partnership with our clients, working closely at every stage to expertly bring their unique vision to life, ensuring every building is not only functional and aesthetically pleasing but also structurally sound, sustainable, and built to endure for generations to come. Our commitment extends to employing sustainable building practices and advanced project management methodologies to ensure timely completion and strict budget adherence. Through rigorous quality control and continuous innovation, we create spaces that not only meet today's needs but also anticipate future requirements, delivering lasting value and satisfaction.

Steel Structure Material Supply, Fabrication, and Fixing

We specialize in the comprehensive supply, custom fabrication, and professional installation of robust steel structures for warehouses, industrial factories, and modern commercial buildings. Our integrated solutions combine engineering excellence with stringent quality control, ensuring superior durability, precision engineering, and optimal cost-effectiveness. From initial design consultation to final implementation, we deliver long lasting, resilient structures that not only meet but exceed diverse construction requirements and industry standards, providing our clients with reliable, sustainable building solutions tailored to their specific operational needs and project vision. Utilizing state of the art technology and advanced manufacturing processes, we ensure exceptional structural integrity and faster project turnaround times.

Long-term Aspirations:

At Spacetech Tanzania Limited, our long-term aspirations are centered on becoming the most trusted and innovative construction and supply solutions provider in Tanzania and the East African region. We aim to continuously expand our capabilities, integrate cuttingedge technologies, and deliver high-quality, sustainable infrastructure that meets the evolving needs of our clients and empowers the communities we serve.

As part of our long-term goals

We aspire to build a lasting legacy of excellence and reliability, where every project we undertake not only meets the highest technical and quality standards but also creates a tangible, positive impact on society. By cultivating strategic partnerships, investing in the continuous development of our talented team, and maintaining an unwavering commitment to ethical, safety, and environmental standards, we intend to solidify our reputation as a professional, dependable, and socially responsible organization.

Sustainability and meaningful social impact are at the core of our long term vision. Our ambitions include championing environmental stewardship, minimizing our ecological footprint, actively supporting community development initiatives, and empowering local talent. This ensures that our growth generates shared value, contributing positively to both society and the economy.

We are committed to a path of continuous improvement, strategic innovation, and purposeful growth. Every project we deliver, every partnership we form, and every initiative we launch is designed to align with our ultimate vision: to create lasting value, build quality infrastructure, and drive sustainable development. Through this commitment, we aim to be recognized not merely as a leading contractor and supplier, but as a true catalyst for economic progress and community empowerment throughout Tanzania and beyond.

Why We're the Right Partner

Spacetech Tanzania Limited is a trusted partner, offering expert solutions and reliable project delivery across construction and material supply. We prioritize quality, safety, innovation, and sustainability, ensuring every project is completed on time and within budget. Through ethical practices, dedicated CSR, and meaningful community engagement, we build lasting trust, empower local talent, and create a positive legacy, making us the ideal partner for your vision.

Uncompromising Quality

Quality is the cornerstone of everything we do. From the premium materials we supply to the expertly constructed buildings and infrastructure, we are dedicated to delivering durability, reliability, and excellence. Our rigorous quality control processes ensure that every aspect of a project is executed with precision, guaranteeing long-lasting and superior results that meet or exceed industry standards.

Experienced Team

Our team consists of highly experienced engineers, architects, project managers, and skilled workers who are passionate about what they do. With years of expertise across a wide range of construction disciplines, our team is adept at handling complex projects with confidence and precision. We work collaboratively with our clients, bringing their visions to life with professionalism, creativity, and a focus on quality.

Innovative Solutions

We are driven by innovation, consistently seeking new technologies and methodologies to enhance efficiency, sustainability, and overall project performance. By leveraging cutting edge construction technologies and implementing eco friendly practices, we deliver state-of-the-art solutions that address both current requirements and future needs.

Comprehensive Services

We offer a comprehensive range of construction services, positioning us as your complete one-stop solution for all construction requirements. From supplying high quality materials to managing design, planning, and execution across civil, residential, commercial, and industrial projects, we handle every aspect seamlessly. Our integrated end to end services optimize the construction process, ensuring a streamlined and hassle free experience for our clients

Competitive Pricing

We firmly believe that exceptional quality should remain accessible and never come at an unreasonable price. Our pricing structure is competitively designed to deliver outstanding value while maintaining uncompromised standards of quality and craftsmanship. Through efficient project management, strategic cost effective solutions, and fully transparent pricing policies, we ensure our clients receive superior service at fair and reasonable rates.

Customer Centric Approach

We recognize that every client possesses unique requirements and visions, and we dedicate time to actively listen and engage with them throughout the entire construction process. We ensure our services are meticulously tailored to align with each client's specific goals and objectives.

Anti-Bribery Policy

Spacetech Tanzania Limited is firmly committed to conducting all its business activities with the highest standards of integrity, honesty, and transparency, ensuring that all operations, relationships, and transactions are carried out ethically and responsibly. The company maintains a zero tolerance approach to bribery, corruption, extortion, or any form of unethical behavior, recognizing that such acts undermine trust, compromise our work, and damage the reputation of both the company and its stakeholders.

All employees, contractors, consultants, and representatives are expected to act with the utmost professionalism, comply fully with all applicable Tanzanian anti corruption laws and international best practices, and refrain from offering, accepting, or facilitating any form of bribe, kickback, improper advantage, or inducement in any circumstance. The company has established robust internal controls, monitoring systems, and confidential reporting procedures to detect, prevent, and address potential bribery or corruption issues.

Spacetech promotes a culture of ethical awareness and accountability, providing regular training and guidance to employees on anti bribery practices, conflict of interest management, and compliance responsibilities. Employees are encouraged to report any concerns or suspected violations through secure and anonymous channels without fear of retaliation, ensuring transparency and accountability at every level of the organization.

Through strict adherence to this Anti Bribery Policy, continuous education, and proactive enforcement, Spacetech Tanzania Limited demonstrates its unwavering commitment to ethical business practices, sound corporate governance, and the cultivation of trust, integrity, and long term value for our clients, partners, employees, and the communities we serve.

Data Protection & Confidentiality Policy

Spacetech Tanzania Limited is deeply committed to ensuring the protection, confidentiality, and responsible management of all information handled in the course of its operations. This encompasses sensitive data relating to clients, employees, partners, suppliers, stakeholders, and business operations, whether stored in digital systems, paper records, or communicated verbally. The company recognizes that maintaining data security and confidentiality is essential for building trust, safeguarding reputations, ensuring compliance with laws, and promoting ethical business practices.

All employees, contractors, and representatives are expected to handle all information with the highest degree of care, professionalism, and discretion, ensuring it is collected, stored, processed, and shared strictly in accordance with applicable national data protection regulations, international best practices, and internal company policies. Access to confidential information is limited to authorized personnel only, and strict controls are in place to prevent unauthorized access, use, disclosure, modification, or destruction of sensitive data.

Spacetech implements comprehensive data management systems, including secure storage solutions, encryption, access controls, regular system audits, and monitoring mechanisms, to safeguard the integrity and availability of information. Employees undergo regular training and awareness programs on data protection, confidentiality, and cyber-security practices to ensure they understand their responsibilities and comply with established protocols.

The company also promotes a culture of accountability and transparency, encouraging all personnel to report any potential breaches, risks, or incidents immediately through secure and confidential channels.

Through this policy, Spacetech demonstrates its unwavering commitment to protecting information, fostering trust, complying with all legal and regulatory requirements, and promoting secure and responsible data management practices across all areas of its operations.

Sustainability & Corporate Social Responsibility (CSR)

At Spacetech Tanzania Limited, we believe that business success is intrinsically linked to community development and social responsibility. Our commitment to CSR reflects our dedication to creating positive change, empowering local communities, and contributing to sustainable development in the Dar es Salaam region and across Tanzania. We actively identify areas where our expertise, resources, and networks can have the greatest impact, ensuring that every CSR initiative aligns with the genuine needs of the people we serve.

Education and youth empowerment are at the core of our CSR efforts. We support programs that provide scholarships, training, mentorship, and skills development to young people, equipping them with the tools and knowledge to pursue meaningful careers and entrepreneurial opportunities. By investing in education and capacity building, we aim to cultivate future leaders, skilled professionals, and innovators who can contribute to the growth and prosperity of their communities.

We also prioritize health, social welfare, and community well-being. Spacetech collaborates with local organizations, health centers, and community groups to support initiatives that improve access to healthcare, hygiene, and basic social services. These efforts include awareness campaigns, the provision of essential resources, and active participation in community development projects that enhance living standards and quality of life.

Environmental sustainability is another key focus area for Spacetech. We are committed to eco-friendly construction practices, waste management, tree planting, and responsible resource utilization. By integrating sustainable methods into our projects and daily operations, we aim to reduce environmental impact while promoting greener and healthier communities for all.

Through strategic partnerships, employee volunteer programs, and continuous community engagement, Spacetech Tanzania Limited demonstrates that our responsibility extends far beyond construction and supply. We are dedicated to building stronger, healthier, and more resilient communities, leaving a lasting positive legacy that benefits current and future generations across Tanzania.

Health, Safety & Environmental (HSE) Policy

At Spacetech Tanzania Limited, the health, safety, and well being of our employees, clients, partners, and the communities in which we operate are of paramount importance. We are committed to creating a safe, secure, and hazard free working environment on every project site, ensuring that safety is embedded into every aspect of our operations.

Our HSE policies are designed to prevent accidents, minimize risks, and protect the environment, adhering to national regulations, industry standards, and international best practices. All employees and contractors undergo regular safety training, orientation, and competency assessments to ensure that they understand and follow strict safety procedures, use personal protective equipment correctly, and respond effectively to emergencies.

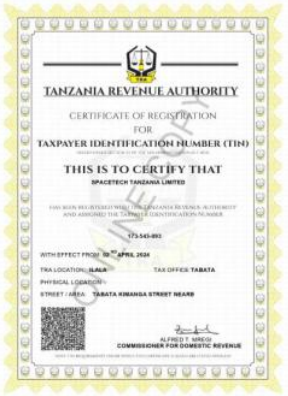

We implement a proactive approach to risk assessment and management, conducting thorough site inspections, hazard analyses, and safety audits to identify potential risks before they escalate. Safety is not just a procedure but a core culture at Spacetech, where every team member is empowered and encouraged to take responsibility for their own safety and the safety of others.

Environmental stewardship is a fundamental component of our HSE commitment. We strive to minimize our environmental impact by adopting sustainable construction practices, responsible waste management, efficient resource utilization, and the selection of eco friendly materials. Our goal is to ensure that every project we undertake contributes to environmental preservation, community well being, and long term sustainability.

Through rigorous HSE standards, a program of continuous improvement, and an unwavering safety culture, Spacetech Tanzania Limited demonstrates its deep commitment to protecting lives, safeguarding the environment, and delivering projects responsibly and sustainably.

Our Compliances

Spacetech Tanzania Limited operates in full compliance with all Tanzanian national laws, regulations, and industry standards. We are duly registered with BRELA and hold valid TIN and VAT certificates, alongside a current business license. Our operations are governed by stringent health, safety, and environmental protocols, and we rigorously adhere to all project quality and technical specifications. Strong corporate governance, unwavering ethical conduct, and strict data protection policies guide every decision we make. Furthermore, we are actively committed to community development through targeted CSR initiatives, ensuring every project we undertake is executed safely, legally, ethically, and sustainably.
